The door was broken open and several buckets of water had been thrown on the fire before the chemical engine arrived in response to an alarm turned in from box 21. The chemical stream was brought into service for the first time, and in a few seconds had the fire out.

There was considerable mystery as to the manner in which the blaze started. It seemed to have had its origin in a drawer in which Mr. Statuver kept some tools and papers. It may have been caused by mice gnawing matches, and the theory that some pilferer had done it was advanced. The latter idea seemed improbable, as all the doors were securely locked. The door was broken open and several

"Stonetown." The two were tried on "Stonetown." The two were tried on four several charges, and the evidence was in some respects racy. Gore was fined \$1 and costs for contending with boud and angry words, and \$1 and costs for indecent exposure of person, and held in \$50 bond to keep the peace for one year. Miss Coates was dismissed on a charge of assault, and held in \$50 bond to keep the peace for a year.

Last evening Lieut. Charles Clark, of the Salvation Army, was arraigned before Squire Arkle on a charge of assault and battery preferred by Frank Grubber. The evidence of different witnesses for the prosecution was extremely like. Clarke showed a commission from Mayor Scabright as a special deputy sergeant. The justice took the case under advisement till Friday evening.

Yesterday afterneon Eugene Arnett, Charles Nolto and George McLaughlin went into M. Biedenbach's saloon on Market street. They say they found him saleep in a chair, and wasked him up, when he began to swear and abuse them, and attacked them with a mop, driving them from the saloon. They had him arrested and arraigned before Squire Davis on charges of profanity and assault. He was discharged on both. Nolte and Arnett also swore out two warrants in Squire Atkle's court for Riedenhach, charging him there also with assault. These cases were set for hearing at 2 p. m. to-day.

Miners' Strike at Elm Grove, Recently Mr. Chambers, the Elm Grove coal operator, discharged three of his miners. The miners' union pro-tected, but the firm refused to reinstate he men, and accordingly the miners, thirty in number, struck, and work was stopped. State President Moran prints a notice in another column, warning unon miners to stay away from Elm Grove until the strike is settled. He said last night that he thought the difficulties would be adjusted soon.

The B & O. Men Discharged. The Mayor rendered his decision yes-terday morning in the case of the three B. & O. employes arrested for laying track on the city property contrary to the ordinances. All three were dis-charged. The Mayor said if the prose-cution were directed against the Con-pany, through its agent, Mr. Stephenson, he would fine him, but Chief Delbrugge says there is no way to arraign Mr. Stephenson for another man's act.

J. B. Loughrau, ex-Mayor of North Des Moines, and the Locust street manufacturer of steam engines and boilers, said: "I had a severe attack of la grippe, I used Chamberlain's Cough Remedy, and applied Chamberlain's Pain Balm to my breast. These remedies were just the thing in my case. My child had the thing in my case. My child had croupsome years ago, and we used Chamberlain's Cough Remedy with perfect euccess; since then we have never been without these medicines in our house. I had a cousin who was a printer and was employed in this city, where they were printing circulars for Chamberlain. He had a deep-seated cold and a terrible cough, and while setting up the copy he made up his mind to buy a bottle. It cured his cough, and that was the first time I ever knew anything of Chamberlain's remedies. I have been strongly in their favor ever since. My own experience and that of my family convinces me that these remedies are the best in the world. That may be strong language, but that is what I think. For sale by W. W. Irwin, C. R. Goetze, J.
